Summary

DevOps & Cloud Engineer with a Bachelor’s in Network and Systems Technology and AWS Cloud Practitioner certification. Experienced in Linux administration, networking, and containerization with Docker and Kubernetes. Skilled in building CI/CD pipelines, automating infrastructure with Terraform and Ansible, and managing cloud resources on AWS. Strong problem-solving mindset focused on scalability, reliability, and security.

Experience

Switch Maker

Devops junior engineer

Mars 2025 - Now

Ouagadougou

🔗 <https://www.switch-maker.com/>

Merradis Burkina
